extra large mouse pads

Clinical Presence

Designed to promote a professional appearance specific to healthcare with industry leading finish selection. Replaceable panels ensure the premium appearance is maintained long after installation.

- Standard and Special Order finishes cover a wide range of decor
- Compact design limits space requirements
- Smooth surfaces, including PIN Code Lock membrane, are easy to clean for improved infection control
- Dedicated cable management channels conceal cables

Usability

Clinician interaction with the product is improved through ergonomic positioning of the keyboard and monitor. The addition of a work surface, large mousing area and integrated task light makes this the most user friendly workstation on the market

- Generous 20.5" w x 10" d dedicated work surface for paperwork, supplies, and medications
- Auto on/off Task Light to reduce visual strain and for nighttime use
- Keyboard drawer extension with integrated wrist rest reduces strain
- Unique user codes make secure access to EMR simple
- Extra Large Right/Left Mouse pads provide ample space for point and click software applications

- Communicate information with the integrated hospital-grade Write Board
